# Youth Voices Contest

You(th) Matter invites you to express your views on the relationship between policing and democracy, in a national competition to win cash prizes. We want to hear from you! The Youth Voices contest will showcase youth writing, film, and artwork from communities nationwide.

## THIS YEAR'S TOPIC

### What do you want police to understand to help them uphold the democratic principle of “by the people, for the people”?

*There are many ways to tackle this question, so there is no one right answer. Here are some ideas below to inspire you. You can choose one or focus on the general topic from your unique point of view.*

- What should police officers know about your community so they can better serve it?
- How do you think policing might help realize the promise of a democracy of the people and for the people?
- What role can policing play in promoting justice and equality?
- How might local police work with community members and community organizations to help better realize the promise of our democracy?
